Don't let your child miss out on our 2 Days 1 Night PTSMC camp again! In September 2016, a team of our teachers from PTSMC has brought a group of Primary school students from our center to a short getaway in Ulu Yam camp site! It was an experience of a lifetime waking up to raw beautiful nature of our home country, Malaysia. These 25 students and the team bonded and toughened through many exciting obstacle courses, jungle trekking, and even through river trekking. Enroll your child now, so he/she will not miss out on the next one!

# FIELD TRIP

WITH 3 YEARS OLD

Even children need a break from school sometimes. Field trips give students educational experiences away from their regular school environment and give children a welcome break in routine. This time off from school once in a while give them a breather to be more natural with their peers. In this given free time, children have the freedom to play, connect, explore, to socialize in a more relaxed manner to fully enjoy their friends. Children deserve to have fun!

Field Trip plays an important role in GCC Group of Schools. Field trip visitation to different educational facilities facilitates children to learn in a more hands-on and interactive manner than they do in school. By seeing real-life application of the lessons that they are learning in school, children might be more likely to understand and appreciate the importance and relevance of what they are learning.

# Parent Testimonies

Fun Station is a very clean & friendly environment which allows children to learn, explore and enjoy their toddler years. The greatest thing about Funstation is the care and kindness of all the teachers and staffs toward every child and parent.

My girl, Ker Ying has grown and become more brave and independent in this past half year.

She loves all the teachers and friends and is able to enjoy her time in Fun Station.

Well done and thank you Fun Station!

Iris loves to share how her day went in school. She just started this year, but feels like she has learned so much. Since we came from a non-mandarin speaking family, we enrolled her in ASP and it has been a magnificent experience for her. 1 year of research for the best Mandarin Medium preschool, GCC is definitely worth the search!

Would definitely enroll her younger siblings when the time comes!

What a great change we see in Genelle catching up with her academics especially in Mandarin after going through some tough time and lost in interest!

Thank God for Ms Tammy for her consistent patience, care and loving kindness that facilitated the breakthrough in Genelle. She is behaving better, picking up Mandarin and showing interest in school!

Ian joined GCC Group of school since he was 3 years old.

When he was 7, I had no hesitation to enroll him to Pusat Tuisyen Si Manja Canggih because the center has a safe and clean environment that is also well-equip with an R&R room.

Besides that, most of the teachers here not only guide them through academics, but they also teach with courage. A positive atmosphere with lots of loves will encourage kids to learn well and be happy all the time, and that's all we want!

**Mother of Ian**

As a parent, we entrust our greatest blessing to the staff at GCC every day. We are grateful for the loving care and guidance my children receives. The teachers look at each child as an individual, with their own strengths and needs. Both our kids have learned so much and have been blessed with awesome teachers who understand their challenges, and handle them with grace. Thank you GCC for an incredible early childhood curriculum!

SMC has an engaging learning environment with passionate teachers.

My boy, Yee Terng has speech and language delay. His poor linguistic skills, comprehension difficulties and inefficiency in communication have led to his poor self-esteem. I'm grateful to all of Yee Terng's teachers that have given him the extra personalized attention during classes. He is now very active in the class.

He can copy and write from the board and can speak in complete sentences.

I am in awe at how much my son has grown both emotionally and intellectually. Our once introverted child has bloomed like a beautiful fragrant flower after being tended by the right lovely gardeners in SMC.
